

**Compliance Letter 12/15/05
WC DOCKET 05-196 and 04-36**

Company Contact responsible for company compliance efforts with VoIP E-911 order:

Edward Cespedes
President
110 E Broward Ave 14th Floor
Ft Lauderdale Florida, 33301
edc@corp.theglobe.com
954-769-5948

Petitioner has previously requested a waiver of compliance with the provisions of the E911 Interconnected VoIP Order entered in these proceedings because of delays in implementation caused by Hurricane Wilma. Petitioner is now advised by its E911 contractor, Intrado, that it cannot translate Petitioner's subscriber identification codes to the PSAPs in a form which the PSAPs are equipped to accept, and, that certain states are now imposing additional testing requirements before approval will be granted to deploy the Intrado service being purchased by Petitioner. Based on the foregoing, Petitioner requests that it be granted a waiver from compliance with the full implementation of the E911 Order entered in these proceedings until February 1, 2006.

This Subscriber Notification Report is submitted December 15, 2005, by Voiceglo, a subsidiary of theglobe.com, in compliance with the guidance issued by the Enforcement Bureau in WC Docket No. 05-196 and WC Docket No. 03-46.
